

FCC Commissioners
The Federal Communications Commission RE: Docket 04-435
445 12th Street, SW
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to voice my opposition to the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

There is no hard evidence that cell phone use doesn't interfere with navigational instruments. The introduction of cell phone use in the cabin will increase tension among passengers and will result in altercations as commonly happens in restaurants and theatres now. It will place the flight attendants in the risky position of having to defuse or mediate disputes and compromise their safety and their ability to maintain order in an emergency. Cell phone use (two-way communication) is an ideal tool for terrorists to coordinate a plan of action more effectively.

Please leave the current rules in effect.

Sincerely,

Emma Ruiz
